

## **Notice to event organisers and club officials**

### **RCHA insurance**

**Following the recent formation of the Radio Control Helicopter Association we have been contacted by a number of BMFA club committees and event organisers enquiring whether they should accept RCHA membership for insurance purposes at their club or event.**

**Following investigation into this matter we advise that at this time RCHA insurance is not recognised due to the level and scope of cover provided under the terms of the policy.**

**Should a member of the RCHA wish to fly at your event or club site then it is recommended that they become either full or temporary members of the BMFA for insurance purposes.**
